Make

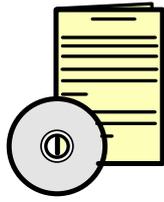

homemade

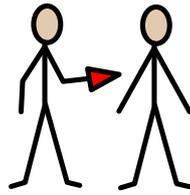

ice cream

ROSEHILL
SCHOOL

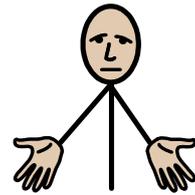

Resources

you

may

need

- **2** **x**    **1**  **1**  (one large, one small)

- **1**   **1** cup of rock salt

- **4**    **4** tbsp sugar or honey

- **1**    **1** tsp vanilla extract

-  Ice cubes

- **2**   **2** cups coconut milk

- **9**   **9** plastic spoons

ROSEHILL
SCHOOL

- 

 Put coconut milk, vanilla extract, and honey into the small

- 

 zip lock bag. Seal the bag.

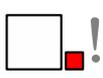

- 

 Put ice and rock salt into larger zip lock bag

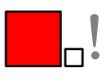

- 

 Place smaller zip lock bag into bigger zip lock

- 

 bag. Seal the bigger zip lock bag.

- 

 Shake the bag for around 7-10 minutes.

- 

 Adults to check that the ice cream is fully mixed. If not

- 

 shake some more.

- 

 Eat the ice cream.

How

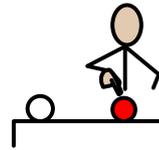

you

might

present

this

work

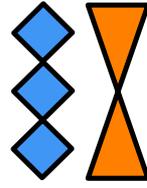

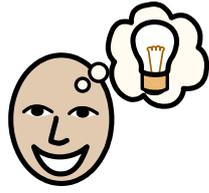

Please video your experiment
or take photos of the different
stages (in particular the final
stage to show if it worked).

If you used different milks which
worked best?

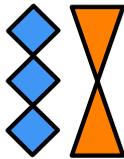

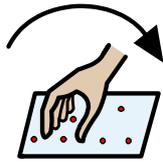

Maybe you changed the
flavour?

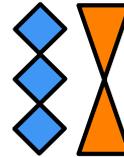

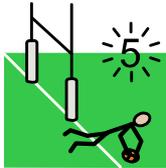

ROSEHILL
SCHOOL

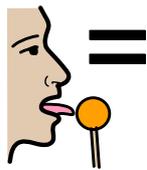

Ideas for differentiation

● Try different milk

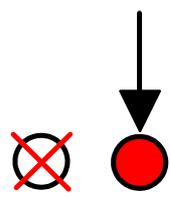

● Try and create different

flavours
